PROFESSIONAL SUMMARY

Full-Stack Software Engineer with expertise in backend API architecture, asynchronous processing, and containerized applications using **FastAPI**, **Python**, **Docker**, and **React**. Experienced in designing relational & NoSQL schemas, implementing secure token-based authentication workflows, and optimizing task queues with Redis. Strong foundational background in Data Structures, Algorithms, and System Design principles.

TECHNICAL SKILLS

Languages:	Python, Javascript
Frameworks & Libs:	FastAPI, Node.js, Express.js, React.js, Tailwind CSS, SQLAlchemy ORM
Databases & Caching:	PostgreSQL, MySQL, MongoDB, Redis, Supabase
DevOps & Tools:	Docker, Git, GitHub, RESTful APIs, JWT, Linux Subprocess, Job Queues
Core Concepts:	Object-Oriented Programming (OOP), Data Structures & Algorithms, Computer Networks

EXPERIENCE

- Python Intern — Infosys Springboard** July 2026 - Present
- Developing BudgetBuddy, a financial management web application using FastAPI, React, PostgreSQL, and Docker.
 - Building backend APIs, database integration, and application features for personal financial management.
- Tech Lead & Secretary — College Coders Club** Aug 2025 - Present
- Organized and managed technical events, workshops, and coding activities across the college.
 - Lead technical initiatives and coordinated with team members to plan and execute events successfully.

TECHNICAL PROJECTS

- Jobify — AI-Powered Resume & Job Matching Platform** FastAPI, React, Google GenAI, MongoDB, pypdf, Clerk
- Built an AI-powered resume–job matching platform with weighted scoring across skills, experience, projects, responsibilities, and education.
 - Implemented skill-gap analysis and prioritized preparation roadmaps for target roles.
 - Generated personalized technical and behavioral interview questions using Google GenAI.
 - Developed FastAPI REST APIs with PDF resume extraction, MongoDB persistence, and Clerk authentication.

- Code0 – Containerized Online Judge & Code Execution Platform** FastAPI, Docker, Redis, PostgreSQL
- Built a secure, asynchronous code execution platform using FastAPI and isolated Docker containers.
 - Implemented Redis Streams with background workers for reliable, non-blocking task processing.
 - Designed PostgreSQL models for problems, test cases, submissions, and execution results.
 - Developed REST APIs for automated testing, problem management, and submission tracking.

EDUCATION

Budge Budge Institute of Technology	Kolkata, West Bengal
<i>Bachelor of Technology – Computer Science and Engineering (AI) CGPA: 8.08</i>	Aug 2023 – Aug 2027
Holy Cross Higher Secondary School	Dimapur, Nagaland
<i>Higher Secondary Certificate (Class XII – Science) Percentage: 88%</i>	Apr 2020 – Mar 2022

ACHIEVEMENTS & CERTIFICATIONS

- **Winner:** Internal Hackathon – Led development of an innovative software solution with Team Tech Innova.
- **SQL and Relational Databases 101:** Certified by IBM SkillsBuild.
- **Object Oriented Programming using Python:** Certified by Infosys Springboard.
- **Introduction to Programming Using Python:** Certified by Infosys Springboard.
