SKILLS SUMMARY

- **Languages:** Python(Proficient), JavaScript(Decent), Java(Good)
- **Frameworks:** FastAPI(Proficient), React(Decent), TailwindCSS(Good), NodeJS(Good), Express(Good), HTML
- **Tools/Platforms:** MySQL(Proficient), Postgres(Decent), SQLAlchemy ORM(Decent), Docker(Proficient), Redis(Decent)
- **Soft Skills:** Leadership, Problem-Solving Skills, Communication, Adaptability

EDUCATION

- **Budge Budge Institute Of Technology** Kolkata, West Bengal
Bachelor of Technology - Computer Science and Engineering(AI); CGPA: 8.08
Favorite Courses: Object Oriented Programming, Data Structures, Networking, FARM Full Stack
August 2023 - August 2027*
- **Holy Cross Higher Secondary School** Dimapur, Nagaland
Intermediate; Percentage: 88%
Favorite Courses: Physics, Mathematics, Computer Science
April 2020 - March 2022

PROJECTS

- **Personal Portfolio & Blog Platform:** Designed and developed a full-stack portfolio and blogging application with FastAPI and React. Implemented RESTful APIs, Supabase PostgreSQL integration, and JWT-based cookie authentication for secure admin routes. Built a content management workflow enabling authenticated administrators to publish and manage blog posts.
Tech: FastAPI, React, PostgreSQL, Supabase, SQLAlchemy, JWT, Secure Cookies, Tailwind CSS
- **Code0 - Online Judge & Code Execution Platform(Dockerized):** Developing a containerized code execution platform capable of securely running user-submitted code. Built a FastAPI backend with Docker-based sandboxed execution, Redis Streams-powered job queues, and background workers for asynchronous processing. Created administrative APIs for managing coding problems, test cases, and execution workflows.
Tech: FastAPI, Docker, Redis Streams, Python, PostgreSQL, Subprocess, Queue Systems, REST APIs.
- **BuyNow - E-Commerce Platform:** Engineered a production-oriented e-commerce platform using the FARM stack (FastAPI, React, MongoDB). Built secure authentication workflows with JWT access/refresh tokens, HTTP-Only cookies, email verification, and role-based authorization. Developed modular REST APIs and backend services with emphasis on security, maintainability, and scalability.
Tech: FastAPI, React, MongoDB, JWT, OAuth Concepts, Secure Cookies, REST APIs, Python.

ACHIEVEMENTS

- **Internal Hackathon Winner(1st Place) :**
Secured 1st place in the internal hackathon with Team Tech Innova for developing an innovative technology solution.

CERTIFICATIONS

- SQL and Relational Databases 101 - IBM SkillsBuild.
- Object Oriented Programming using Python - Infosys Springboard.
- Introduction to Programming Using Python - Infosys Springboard.
